

Cooperative for Education

<https://coeduc.org/mission-vision/>

Mission: We are dedicated to breaking the cycle of poverty in Guatemala through education. Our educational programs strive to address the root causes of poverty in Guatemala, rather than merely treating its symptoms.

Vision: We believe that all humans are born with abundant potential—we are destined to become creators, healers, innovators, builders, educators. **We yearn to leave the world better than we found it.** But a child born into the generational cycle of poverty is too often stripped of this destiny. **We believe that every child, no matter where they were born or what their circumstance, deserves the opportunity to determine their own story.**

That's where education comes in. Education is about justice. **Where poverty robs us of opportunities, education gives them back.** Education levels the playing field. Education opens doors.

We have a vision of a Guatemala transformed through education: a future in which every Guatemalan child learns to read and graduates high school with the skills they need to thrive. Is this a tall order? Yes. But is it possible? Absolutely. Because we know that **when we empower young people with the opportunities to rise out of poverty, not only will they determine their own stories, they will shape the destiny of their country.**

How We're Different

1. **Laser Focus** - We work in Guatemala. We work in education. That's it. And that's how we became experts in the field.
2. **Deep Development** - We layer our four educational programs to help students achieve more than they ever dreamed was possible.
3. **Community Engagement** - We partner with local teachers, parents, and education officials so that everyone has a hand in forging new opportunities for students.

4. **Attacking the Root** - We target the root causes of poverty by giving kids high-quality educational opportunities so they can develop their full potential.

5. **Proven Projects** - We encourage you to explore our interactive program map, browse our measurable results, or visit our projects in person to see exactly how your support helps children in Guatemala. (links on the website)

6. **Sustainability** - We design our programs to thrive and survive into the future by using self-sustainable models and investing in the potential of students and teachers.

Sponsor the Technology in Action Workstation Most in Need

Sponsorship - Contact us at 513-661-7000 or info@coeduc.org.

Sponsorship Type - Computer Workstation

Sponsorship Highlights

60% of entry-level jobs in Guatemala require computer skills, but many rural communities lack access to modern technology. Give students access to better jobs and further education by covering costs such as software installation and updates, occasional equipment replacement, tech support & program maintenance. A plaque recognizing your generosity will be installed on your workstation and you'll receive thank-you letters and photos from the students benefiting from your support.

School Summary: Sponsor the program most in need.

Program Details: CoEd Staff will match you with the unsponsored program that is most in need.

Amount: \$1,200USD. Beloved is committed to raising the funds for 1 computer workstation. Please use the QR code below to donate. If you would like to write a check please make sure you add "computer workstation" in the memo line.
